

Emerging Professionals

Chair: Kim Kerrigan, SPHR; SHRM-SCP

Members:

To give back to the HR community, to encourage volunteerism and to develop future leaders on behalf of HRA, this group is open to young HR professionals with eight or less years' experience. This venue supports and recognizes the future of our profession by assisting in their growth by providing a forum for idea sharing while benefiting from fresh and insightful new ideas and contributions to our profession and association that can be realized by these individuals.

This committee creates a bridge between student chapter members and graduating HR students with the professional chapter members. The committee finds ways to support the needs of the new HR professionals and may have events / initiatives targeted to their needs.

Special events could include such things as a networking event to allow informal sharing, a targeted training event, video or discussion group.
